Nam si vel paululum mentis aciem in superiora tempora defigamus, nullam inveniemus gentem tam barbaram & incultam, tam ab omni Religione & superûm cultu alienam, quæ hâc arte caruerit: adeò ut ipsos Thraces maximè agrestes & barbaros eius inventores fuisse nonnulli sint commenti: quod si eorum exempla intueamur, qui hujus amore ducti, non solùm eius artis peritos susceperint, omnibusque fortunæ donis locupletarint; sed eam ipsam addidicerint; plurimi sese offerrent quà literis quà virtute & vitæ sanctimonia eximii, qui huic se studio totos quanti quanti erant consecrârint, quos recensere non est necessum: Nec immerito: si enim juxta Aristotelem Philosophorum hodie facilè principẽ ad virtutem pertineat Musica, uti ipsemet l. 8. de repub. cap. 4. asserit; quis non eam approbet, non ambabus, quod ajunt, ulnis amplectatur, aut si minus ipse amplecti possit, eius profectò cultores foveat, & in sinũ tutelamq; suam suscipiat? quid? si ille propterea virtutis titulo & insigni cohonestandã arbitratus est, quod nimirum animi habitum bene constituere possit; quo eam nomine nos ornandã putabimus, quæ ad ipsum Deũ rerum omniũ gubernatorem laudibus prosequẽdum, cuius solius gratiâ spiritũ quẽ ducimus, lucemq; quâ fruimur, à Deo accepimus conducat? nonne è cœlo in terras delapsã hominibusq; peculiari præpotẽtis Dei munere, ut & reliquos virtutes cõmunicatam asseremus?

Quæ cũ ita sint, & satis liquidò inter omnes constet, hanc divinã artem juxta Emerpen nequaquã esse cavillandam; vereor tamẽ ne mihi idem usu eveniat, quod olim regio psalti accidisse ferunt sacri codices, ut videlicet Musicis modulationibus, iisq; sacris intento, non ex arce regia Mihol aliqua, sed nescio qui terræ filii ex obscurissimis angulis obgãniant, meq; ceu mẽtis impotem dẽte Theonino carpant, sibilisq; proscindãt. Nam si vel paululum mentis aciem in superiora tempora defigamus, nullam inveniemus gentem tam barbaram & incultam, tam ab omni Religione & superûm cultu alienam, quæ hâc arte caruerit: adeò ut ipsos Thraces maximè agrestes & barbaros eius inventores fuisse nonnulli sint commenti: quod si eorum exempla intueamur, qui hujus amore ducti, non solùm eius artis peritos susceperint, omnibusque fortunæ donis locupletarint; sed eam ipsam addidicerint; plurimi sese offerrent quà literis quà virtute & vitæ sanctimonia eximii, qui huic se studio totos quanti quanti erant consecrârint, quos recensere non est necessum: Nec immerito: si enim juxta Aristotelem Philosophorum hodie facilè principẽ ad virtutem pertineat Musica, uti ipsemet l. 8. de repub. cap. 4. asserit; quis non eam approbet, non ambabus, quod ajunt, ulnis amplectatur, aut si minus ipse amplecti possit, eius profectò cultores foveat, & in sinũ tutelamq; suam suscipiat? quid? si ille propterea virtutis titulo & insigni cohonestandã arbitratus est, quod nimirum animi habitum bene constituere possit; quo eam nomine nos ornandã putabimus, quæ ad ipsum Deũ rerum omniũ gubernatorem laudibus prosequẽdum, cuius solius gratiâ spiritũ quẽ ducimus, lucemq; quâ fruimur, à Deo accepimus conducat? nonne è cœlo in terras delapsã hominibusq; peculiari præpotẽtis Dei munere, ut & reliquos virtutes cõmunicatam asseremus?

nullus dubito: utpote quę in ipso augustissimo cœlorū domicilio, sedē suā fixerit semperq; ibidē exercita fuerit. Quæ cū ita sint, & satis liquidò inter omnes constet, hanc divinā artem juxta Emerpen nequaquā esse cavillandam; vereor tamē ne mihi idem usu eveniat, quod olim regio psalti accidisse ferunt sacri codices, ut videlicet Musicis modulationibus, iisq; sacris intento, non ex arce regia Mihol aliqua, sed nescio qui terræ filii ex obscurissimis angulis obgāniant, meq; ceu mētis impotem dēte Theonino carpant, sibilisq; proscindāt.
