Omnis Spiritus laudet Dominum,

Apud Petrum Mareschallum Bibliopolam Heidelberg.

Anno D. M. XCVI.

SERENISSIMO ET INCLYTO PRINCIPI ET DOMINO DOMINO FRIDERICO,

Comiti Palatino Rheni, Sacri Romani Imperii Archidapifero & Electori Illustrissimo Duci Bauariæ, &c. Domino suo Clementissimo.

S. P.

ISACIDVM *quondam funda fatalis ab ictu*
Pro caula diadema situ, grauiora que vili
Sceptra pedo capiens lessæus regia vates
Fortuna meditatus opes, supremaque grato
Pectore miratus rerum fastigia, IOVAM
Non celebrare DEVM *regem, summiq; Tonantis*
Facta stupenda prio modulari carmine, gestu,
Voce, animo, cithara, fidibusque sonare canoris
Erubuit, cuius plures exempla secuti
Sacra propagarunt natis oracula patres,
Sic genus excelso quicunq; a stemmate clarũ
Nobilitate trahit, tituliſq; insignibus altum
Nomẽ habere parat, famamq; extendere factis.

Eheu quam tenui morta...a ludicra gustu
Libat, & in medio marcescit flore salutis,
Sit nisi diuitiis pietas coniuncta bonorum
Vita præsentis quam dos manet atque futuræ.
Scilicet hæc virtus, vera & sapientia prima
est
Illa timere DEVM, *recti qua seruat amussim,*
Et se nosse docet laudemque per omnia quærit
Officiosa DEI, *cui lingua & pectore seruit.*
Salue igitur Generose heros, Dux inclyte &
princeps
Elector, Palatine Comes, FRIDERICE *Sacrati*
Imperii dapifer primas & gloria Rheni.
Nobilitas Bauarum celebris de sanguine surgens
Cæsareo cui stemma dedit, pax florida nomen
Qui Musis sacer atque DEO, *commissa potenti*
Sceptra manu frenas studio pietatis & æqui
Clarus es, ingenio felix, vitaque decenti
Integer, & purus sceleris diuina fideli
Dogmata sectaris cultu sanctaque paternam
Religione domum genus & virtute coronas.
Nec te sacra pudet Iessæi carmina psalta
Cum populis cantare tuis, Ecclesia vulgo
Qua non sola canit sed & hæc solando laborem
In domibus ciues recitant, in rure coloni
Cumque iugis lato resonant examine colles
Quos rapido Rheni cũ flumine Neccarus ambit.
Teq; imitata Ducem patriis gens subdita terris
Diuina meritos extollit laudis honores.

Hinc DEVS *ipse tuas res & tua cœpta secundãs*
Te sibi dilectum casu seruabit in omni.
Nam quicunque DEVM *timet, & quicunque fatetur.*
Hunc amat, inque vicem, DEVS *ipse fatebitur illum,*
Sic tua per gelidas fama leuioribus alis
Gloria se tollit nubes, tandemque soluti
Vindicat a tenebris viuum post funera nomẽ.
Hac ratione decus stirpis retinetur auita.
Sed quia Psalmographi diuina poemata regis
Gallica qua Beza dextram prabente Maroto
Harmonicis aptata modis translatio pridem
Premisit: Laudator aqua sed vtrunque secutus
Ambrosius Germana dedit suadente bonorum
Consilio, indoctus maioraque viribus audens
Ingenii vena rudis inuitaque minerua
Simplicibus lingua rythmis metrisque latina
Qua neque Germanis nec Gallis libera cedit,
Depinxi solerte opera studioque fideli.
Hoc tibi submittens opus augustissime princeps
Vt mihi Mœcenas reddaris, humillimus auctor
Dedico, patroni tu me dignare clientem
Præsidiis, paruumque boni rogo consule munus,
Et mage materias hedera non prorsus egentes
Atq; voluntatem, quam totum respice carmen.
Nec rogo displiceat, tibi sanguine iunctus amico
Cattorum Princeps illustris & inclytus heros

Mauritius tibi confrater Nisoque fidelis
Euryalus, quorum Germana fœdere floret
Accipit exili tecum de munere partem
Maior vt accedat præsenti gratia libro
Gaudeat & geminis fœlix tutoribus auctor.
Viue diu Generose Leo cum Principe costa
Incolumis, donec multa cum prole nepotes
Ipse senex numeres, placida & post somnia mortis
Perpetua cœli viuas in pace beatus.

ILLVSTRISSIMO PRINCIPI AC DOMINO D. MAVRITIO LANDGRAVIO HASSIÆ, COMITI CATTIMELIbocorum, Deciorum, Zigenhani & Niddæ, &c. Domino suo clementissimo.

Salutem plurimam.

OMnis origo boni cum sit DEVS atque salutis,
Principium vitæ, rerumque æterna potestas,
Qui mare, qui terras, radiantis & inclyta cœli
Sidera cum ventis, Lunæ Solisque labores
Quidquid & hic ingens animantum continet orbis
Ex nihilo sola VERBI virtute creauit,
Et genus alterna mortale propagine seruans
Vestit, alit, cunctisque iuuat, quibus indiget vti.
Cuius Maiestas non circumscripta, perennis,
Fine carens solii, titulis & nomine maior
A primo *Mu*ndi exortu tot tantaque fortis
Vndique (scum scopulis vos syluæ & flumina testes)
Mole stupenda graui fecit miracula dextræ.
Huic rationis homo conformis imagine quondam
Auctori, quantum, heu, misero vis æmula regni
Non lapsu periit carnis, malique veneno,
Dum sacer in repido scintillam pectore fomes
Nutrit & amissæ renouat primordia lucis,
Suspicit ingenio tanti veneranda Monarchæ
Numina, consilii finem sapientis in omni
Obseruat, rerumque vices & pondera, casu.

Dumque hæc assidua meditans in dagine voluit,
Agnitione DEI, pietatis & arte Magistra
Ductus, ab exemplis sequitur vestigia Patrum.
Et, quæ corde diu credit monumenta fideli
Iustitiæ, gratis confessio libera linguæ
Laudibus eructat, soluitque in carmina vocem.
Exo. 15. Sic immensa DEI, Maris ad rubri vada Moses
Isacidum celebrat læto magnalia cantu
Cum populo. Pharium feralibus victor & hostem
Exsequiis Erebi manes destinat ad imos.
Sic soror Amramidæ matrum comitante caterua,
Ad choreas vates, pulsans sua tympana Miriam
In bonitate DEI, lætum Pæana canendo
Gestit, & ad cantum socias inuitat ouantes.
Iud. 15 Sic postquam Iabini temeraria sica Tyranni
Sisera lethali perfossus tempora clauo
Turpiter occubuit muliebri stratus ab ictu,
Insignis iudex cum milite Debora Barac
Iubila grata DEO cantat cum laude triumphi.
1. Sã. 18. Sic magnum Goliath caulæ de sæpe vocatus
Cum pastor Dauid iuuenilis verbere fundæ
Fregit, & exanimem media prostrauit arena
Carmine matronarum ordo gratatur honori
Victoris, Dominoque canit pro vindice grates.
Nempe fore, vt surgens radicis virgula esse
Diuina stygium sternat virtute Gigantem.
Esa. 12. Sic sua deuotis oracula cantibus ornat
Præscius Amosides, magnum si pectore posset
Excussisse DEVM, reserans arcana futuri,
Et sacrata videns saluandi regna Sionis.
Es. 38. Sic Ezechias, Habacuc, sic Hanna, Manasse,
1. Sam. 2 Sic Sadrach, Mesach fratres, & tertius illis
Hab. 3. Iunctus Abednego fumantis in igne camini
Dan. 3. Cum tutore Deo iuuenes attingere flammæ
Erubuere pios, & vestem lambere tactu.
Dum benefacta DEI populis diuersa recensent,

Per sua custodem venerantur cantica grati.
Sic post antiqui mysteria fœderis, orbi
Cum iam venturum mulieris ab æthere semen
Prædicit Gabriel diuini nunctius oris,
Alma Dei genitrix, sacrati flaminis æstu
Ebria magnificum cœli plaudente tonantem
Exsultans hymno celebrat, faustoque salutis
Omine luxuriat, syncero corde fidelis.
Sic quoque Baptistæ genitor fatale Ioannis
Cum pueri nomen mutus signare tabellis
Cœpisset, linguæ pariter remorantia rupit
Vincula, sacratoque Dei carismate plenus
Tanta prophetizans cecinit miracula vates.
Sic vbi cœlestis Iouæ caducifer ales
Virginis in partu nato iam principe pacis
Nunctiat inducias mortalibus atque salutem,
Ocyus angelicum veniens examen Olympo
Harmonicis tenues mulcet concentibus auras,
Sic etiam viso, qui spes erat ardua patrum,
Humani medico generis, lethique veneno
Presbyter emeritus Simeon lætatur in vlnas
Suscipiens Christum cygnæo iubila cantu
Claudit, & in placida dimitti pace precatur.
Cetera quid referam, per relligionis amorem
Quæ pro laude Dei pietas cantauit auorum?
Cuncta sed hæc inter Iessæi mystica vatis
Si bene respicias dulces oracula psalmos
Extul, inops profugus per tot discrimina rerum,
Per varios casus, per mille pericula vitæ
Iactatus fatis, diuino numinis ardens
Afflatu sancti, citharæ modulamine blando
Vocis & argutæ lingua, fidibusque sonoris
Orphea, quæ superans cecinit Iessæus Arion.
Quid non doctrinæ? quæ non solamina cordis
Afflicti? quæ non animæ præcepta fidelis?
Quas non virtutes? quæ non exempla nocentis

PSALMVS XVI.

Conserua me Domine &c.

Dauid a Deo auxilium petens, fidem suam & non opera allegat, quæ coram Deo nulla esse affirmat, postea, se omnem abominari idololatriam, Deum summum bonum putare, testatur, preces suas exaudi tas esse penitus confidens. Quamobrem Deo gratias agit, certo sperans, se non solum Deum in his terris celebraturum, sed etiam post mortem lætitiæ & gaudii beatitudinis per Messiæ resurrectionis potentiam participē fore, de quo etiam clare vaticinatur, vt in secund. & tert. capite Actorum exponitur. Psalmus hic formula est credentium, qui in hac vita in precibus suis hæsitant.

PSALMVS XXXII.

Exsultate iusti in Domino, &c.

Hymnus hic est in quo Dauid Deum omnipotentem celebrari iubet. Deinde quod omnia plena sint bonitatis eius, asserit, mirabilia eius enumerat, principes ne in propriis confidant viribus adhortatur, addēs, quod Deus adsit honore afficientibus se. Denique bonitatem eius inuocat.

4 *Gentem comes tu prauius*
Ex valle deserti Deus
Cum duceres amatam,

Orbis tremebat cum solo
Stillabat vndas de polo
Iram timens minatam.
Sina pauebant culmina
Cum vultus inter fulmina
Iacob Dei patebat,
Hæreditas largis tua
Rorante cœlo perflua
Ex imbribus madebat.

5 Possessionem languidam
Curas medelis hanc tuam,
Illic greges morantur.
Et pauperes ditas bonis,

Hostes fugati dum cadunt,
Nympha chorais hoc canunt
Hymni melos ouantis.

Domine exaudi orationem

Piorum gratia Pſalmus hic factus eſt, eo tempore, cum quaſi in Babylon captiui tenerentur, arduam continet precationem, vt Eccleſia reſtauretur, & non ſolũ vt priſticum ſtatum recuperante verum etiam vt regnum DEI poſt hac in meliorem quam hactenus erat, ſtatum redigatur. Denique cum populus tam imbecillitatem quam afflictionem ſuam cognouiſſet in æterna DEI potentia rurſus ſe erigit.

Præsens tempus est iuuandi
Et curis eam leuandi,

12 Iouæ nomen vt colatur,

Ciues Solymæ suam
Narrent ibi gloriam.
Cum per congregationes
Confluxere nationes
Et reges Deo vocati
Inseruire sunt parati.

13 Afflixit mihi valenti
Vires in via cadenti,
Et comminuit breue
Vitæ spatium meæ
In fortis die iuuentæ
Me non auferas repente:
Æuo cuncta deliquescunt,
Anni non tui senescunt.
14 Terras in globo rotundo
Fundasti, sinu profundo
Cœlos tua dexteræ
Firmauit ad exteræ.

Sed tu Ioua permanebis,
Hæc transfire cum iubebis.
Vilescent enim soluta
Vsu vestis vt minuta.
Mutabuntur in vigore
Per te de statu priore,
Velamen vt interit
Versum quod habens gerit.
Es tu qui Deus fuisti,
Nec mutarier tulisti.
Anni non tui teruntur,
Aut ætate finiuntur.
Sic æterna seruulorum
Nati sospites tuorum
In secula gestient,
Finem quoq; nescient.
Cultores tui probati
Sed cum posteris beati
Protectore te manebunt,
Et semen suum videbunt.

Abscondis, aura nesciunt frui,
Si spiritum vita necas sonantem,

Oris per afflatum tui breuem
Cordis resumunt halitum leuem,
Et suscitantur mortis ex dolore,
Terram reformas tu nouo colore.

16 *Laus sit Deo per cuncta secula*
Qui lucidum formauit athera,
Illi placent perfecta qua creauit,
Cunctis opus rebus suum probauit.
Telluris orbem quando conspicit,
Terrore grandi meta contremit.
Montes parum si tangit altiores,
Spirant atros fumi metu vapores.

17 *Hymni Deo psallens melos canam,*
Donec vigor vitam reget meam,
In carne fibras sospes & mouebo
Laudem Dei cum gloria docebo.
Illi tamen supplex mei, precor,
Acceptus vt sit carminis tenor.
Sic gaudio lætabor incitatus
Et nomen eius pradicabo gratus.

Sed tu mea vis, euge, viua mentis
Numen Dei lauda sacrum potentis.

PSALMVS. CXIX.

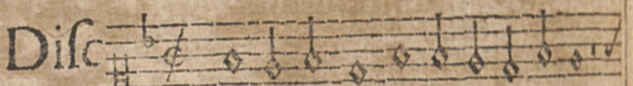

Beati immaculati in via,

Præstans, artificiosus, excellensque hic est Psalmus, in quo Dauid laudem legis DEI, voluptatem & amorem, quo eam amplectitur; non pro rei dignitate enumerare potest, vbi multas querelas, & contra solatia immiscet. Psalmum hunc merito homo pius ore & corde amplectatur.

2 O ter beatos qui dolis carent
Et mente pura non iniquitatis
Culpa laborant, nec leues habent
Ludibrio pactum fidelitatis.
Verbi tui præcepta nos iubent
Intrare callem, Ioua, veritatis.

3 O si tuis dum vixero queam
In semitis prudenter ambulare,
Vt legibus morem tuis geram,
Possim modo quæ præcipis notare,
In corde spem confisus hanc feram,
Turpi pudoris labe me vacare.

In lustra seruabo perennitatis.
23 Mandata verbi quæritans tui
In gaudiis securus ambulabo,

25. Esto memor seruo, DEVS, tuo

27 Legem malignos semper vt tuam

32 *His associam me iungo cœtibus*

Terram bonis mundi reples patentem,
Sed cum statutis missa cœlitus
Decreta sensu me dote carentem.

Verbi sequor mandata iam tui,
Et perpetim seruare sum paratus.
Tu mitis & clemens vt es mihi,

35 In me superbi turpe per nefas
Mendacium fingunt & impudentes,
Leges sed obseruo DEVS tuas.
Hi pingue cor fastu gerunt tumentes,

Præbent voluptates mihi frequentes.
36 Prodest mihi quod mole me crucis
Examinasti plurima grauatum,
Vt legibus sim deditus tuis
Quarum tenet me cura suscitatum,
Auri vel aris mille præ bonis
Oris tui verbum probo beatum.

IOD. X.

37 Dextra creatus sum, DEVS, tua,

Verbi tui spem pono fortiorem.
38 Æqua patet quod lance iudicas,
Iniuriam nulli facis malorum.
Et me scio, quod iure corrigas,
Vnum precor, supreme REX DEORVM,
Vt me datam solatus erigas

RES. XX.

77 Quantus fatiget me dolor vide,
Et sorte clemens liberato dura,

Verbi tui promissione puræ.
78 A reprobis (non fallor omine.)
Iuris quibus non lex tui probatur
Longe salutis spes abest tuæ.
Magni, quod es tam mitis, æstimatur:
Hanc gratia vitam tua foue
Et iure, quod non fine terminatur.
79 Nunquam tuis a testimoniis
Discedo, per sectas licet malorum
Iniuriis infestor asperis.
Vrit videntem flamma me dolorum,
Qui vera contemnunt, quod a viis
Migrant iniqui iussuum tuorum,
80 In mente leges rumino tuas,

Me, quæso, turbatum recolligas.
Claret tuus nam sermo veritate.

Quo iudicas & iuris æquitas

Hierusalem restaurat auctor

2 Contrita sanat corda, mentes
Et recreat luctu dolentes
Succurrit in languore stratis,
Cura medetur vulneratis.
Stellas poli nouit lucentes,
Noctisq; flammis præminentes
Cœli faces scit computare,
Et singulatim nominare.

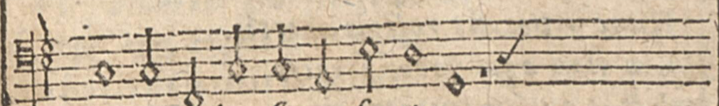

Et gratia dat signa fautor,

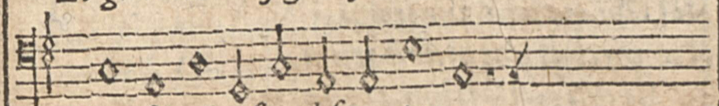

Qua stirpis Israel fugatos

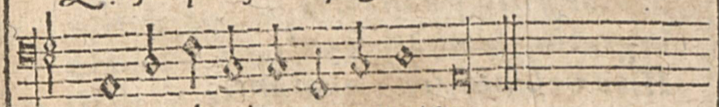

Ciues reduxit congregatos.

Et gratia dat signa fautor,

Qua stirpis Israel fugatos

Ciues reduxit congregatos.

3 *Est maximus rex Ioua regum,*
Est maior illo nulla rerum.
Immensa virtus est tonantis,
Meta caret vis imperantis.
Hic erigit clemens egenos
Et corde mansueto serenos.
Contra patiens scit proteruos
Stratos humi perdit superbos.

4 Quin nabla plectris incitate,
Cantu DEI laudes sonate
Qui nubilis aura repletis.
Cœlum tegit tanquam tapetis.
Nymbi pluens rorantis undam
Demittit in terram profundam,
Imbri rigat montes bibentes
Vt proferant herbas virentes.
5 Largitur escam sponte brutis
Pullisq; coruorum minutis
Qui matribus nusquam repertis
Hunc invocant rostris apertis.
Quem non equi robor ferocis
Delectat aut virtus atrocis,
Nil tibias curit virorum
Nec viribus placatur horum.
6 Se diligit tantum timentes
Qui corde fracto pœnitentes
In gratia saluante sperant,
Hinc vt plutis dona quarant.
Lauda Salem IOVAM benignum
Praconiis extolle dignum.
Lauda Son IOVAM decenter
Patrem tuum lauda frequenter.
7 Clausti tuas qui roborauit
Et vecte portas obligauit,
Qui prsperabit filiorum
In te gaus felix tuorum.
Fines tuo qui pace munit.

Concordia ciues & vnit,
Potum tibi dulcem propinat
Et farre te pingui saginat.
8 Verbum suum quo cuncta fecit
In lata terra Regna iecit.
Eius q; sermo liberalis
Velocibus discurrit alis.
Mittit niuem passim ruentem
Ceu velleris lanam nitentem.
Telluris in messem supinas
Vt pluuerem spargit pruinas
9 Spissosq; crystallis rigores
Ceu bucceas mittit minores,
Vultum DEI quis, si videbit
Quis frigus eius sustinebit?
At verbuli saltem valore
Soluit gelu tanquam calore,
Spirante vento quod putrescit
Vt lympha concretum liquescit.
10 Olim Iacob verbi decebat
Hanc & sequi, normam monebat.
Decreta iuris cum statutis
Abramidis sanxit secutis,
Hoc ceteris non in fauore
Dignatus est gentes honore,
Legem quibus non explicauit
Nec talibus donis beauit.
