Benevolo lectori.

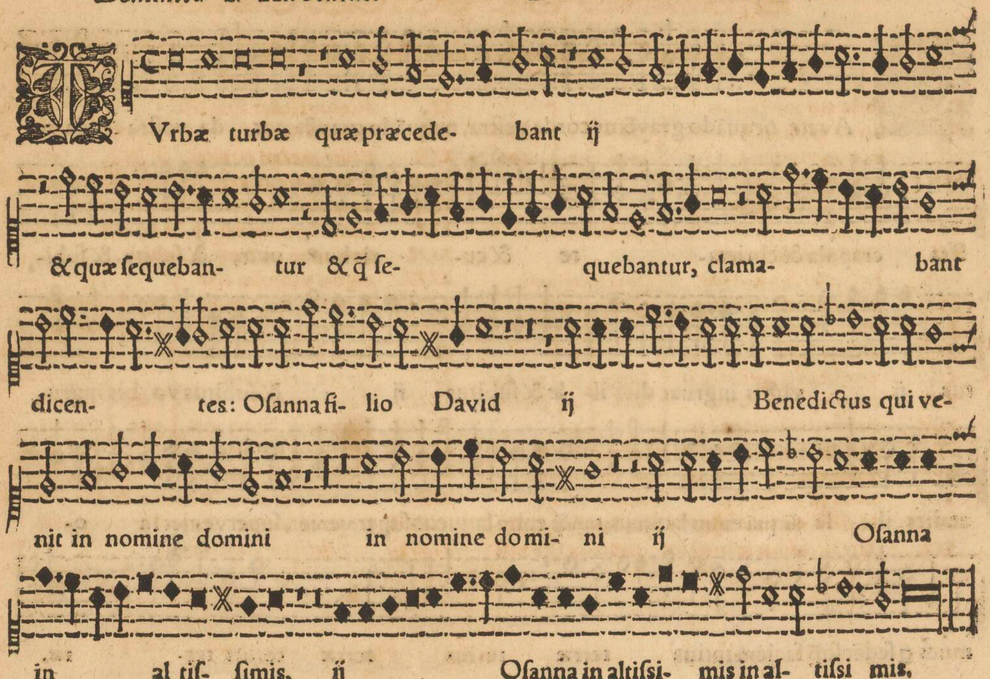

QVa occasione de adornando hoc opusculo cogitare, candide lector, cœperim: quibus item caussis motus, singulorum modorum exempla inserere & typis evulgare voluerim, antea ex me cognovisti. Quia autem altera pars anno superiore in lucem prodijt, necesse fuit hanc adiungere: ne à bene cœptis destitisse, & domum, quod aiunt, imperfectam reliquisse viderer.
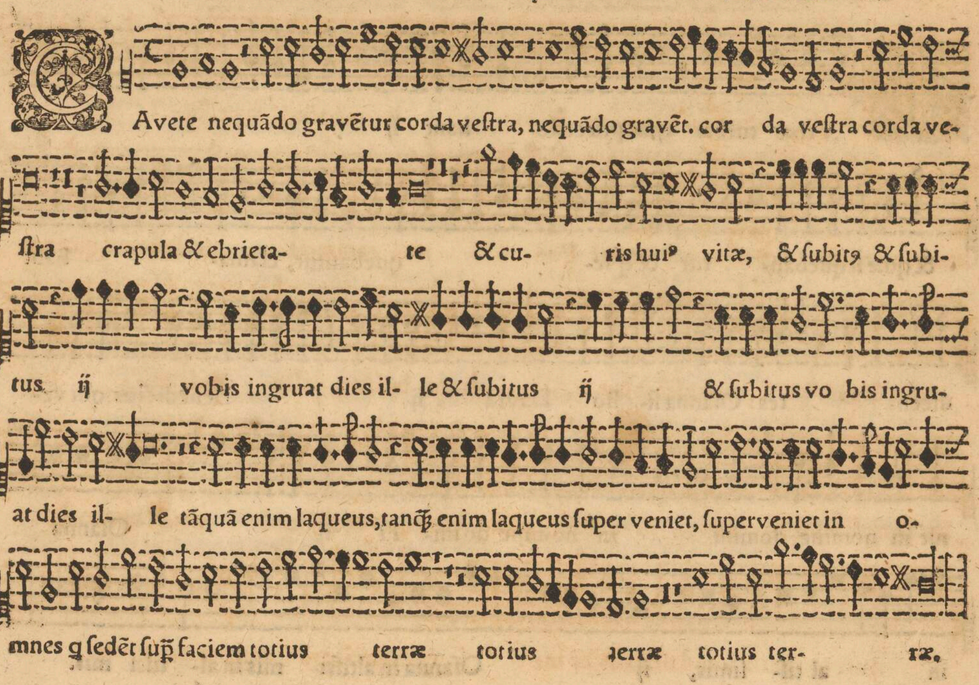

Quod ad studium meum attinet, primò omnem adhibui diligentiam: ut quemadmodum decet melopœum, textum non solùm notulis ritè applicarem (id quod veteres parum curasse constat) verum etiam sensum & ἐνέργειαν eius, quantum fieri potuit, exprimerem: ut ita harmonia, quemadmodum præcipit Glareanus lib. 2. cap. ultimo, rebus apta redderetur.

Deinde in harmonia ipsa condenda cavi, ne quid contortum, anxium aut alienum insererem, sed maxime γνήσιον, quod ipsa in re quasi natum videretur: quanquam ingenuè fateor, animum quotidiana intentione (taceo interim luctum, ob immaturam mortem filioli suavissimi) hebetatum, alicubi remissiorem fuisse, præsertim in modis minus elegantibus: qui licet quàm diligentissimè tractentur: attamen aliorum venustatem minime assequuntur, nisi extra chorum saltare velis, phrasi ipsorum contorta. Adhæc fugæ quid requirant, quantoq; labore constent, intelligunt μουσικώτεροι. Hîc iterum non diffiteor, interdum fugam aliquam, aut à me ipso antea, aut ab alijs usurparam, præoccupasse animum meum vel invitum: dedi tamen operam ut tædium si quod ex iteratione obrepere fortè posset, adimerem, facie eius nonnihil immutata. Ideo me tibi excusatum iri spero. Nam imitationem, quam in alijs autoribus probamus, cur in musicis improbaremus? Tum limites vocum licet quandoq; transgressus sum: non tamen id temerè à me factum deprehendes. Postremò illud te latere nolo, cantiones dominicis Lætare & Palmarum applicandas, consultò omissas esse: quia altera illarum dominica septima post Trinitatis, altera dominica prima Adventus recurrit. Vale musicè lector candide χῶρ τοῖς ἐγγεγυμένοις ἢ ἐκλείπω τὰ τοῦτων χείτω: id quod citra mei offensionem tibi licebit.

In uſum chori muſici dedicatum ab Autore.

Benevolo lectori.
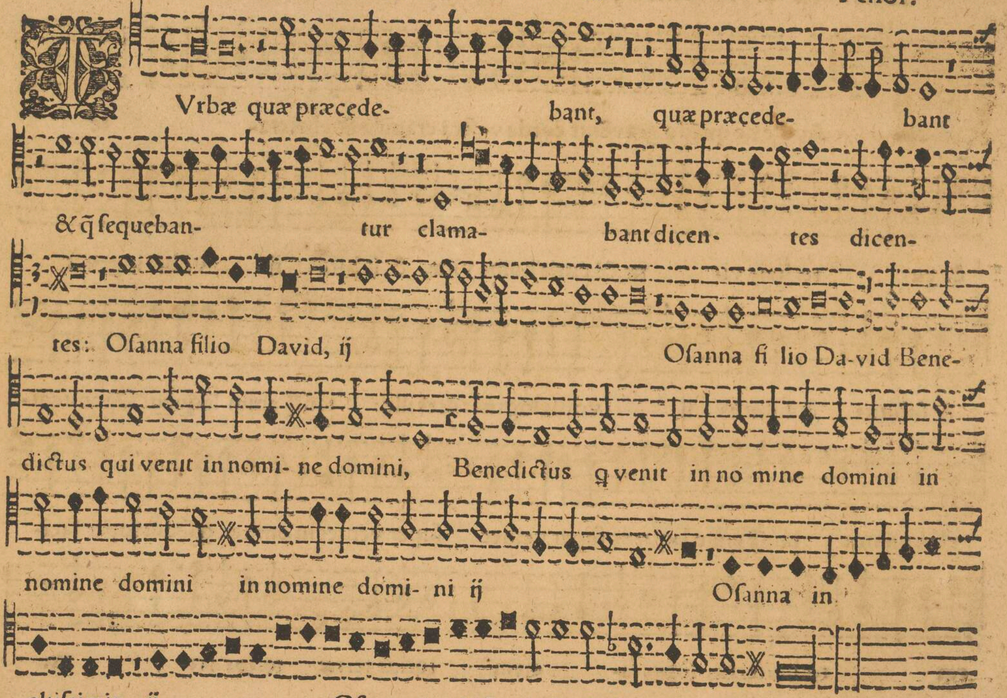

QVa occaſione de adornando hoc opuſculo cogitare, candide lector, cœperim: quibus item cauſsis motus, ſingulorum modorum exempla inſerere & typis evulgare voluerim, antea ex me cognoviſti. Quia autem altera pars anno ſuperiore in lucem prodijt, neceſſe fuit hanc adiungere: ne à bene cœptis deſtitiſſe, & domum, quod aiunt, imperfectam reliquiſſe viderer.

Quod ad ſtudium meum attinet, primò omnem adhibui diligentiam: ut quemadmodum decet melopœum, textum non ſolùm notulis ritè applicarem (id quod veteres parum curaſſe conſtat) verum etiam ſenſum & ἐνέργειαν eius, quantum fieri potuit, exprimerem: ut ita harmonia, quemadmodum præcipit Glareanus lib. 2. cap. ultimo, rebus apta redderetur.

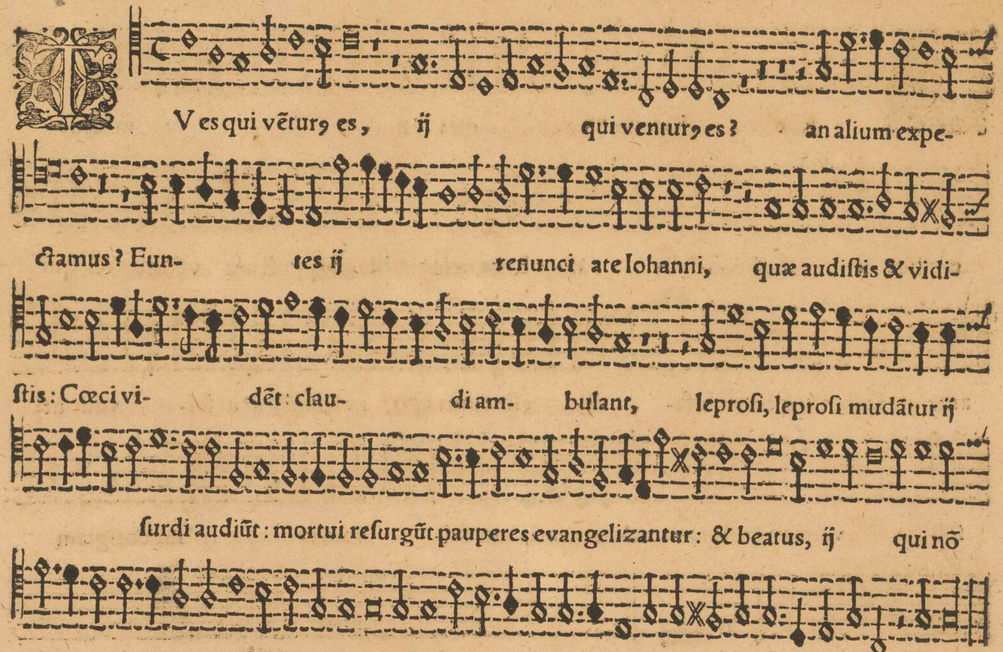

Deinde in harmonia ipſa condenda cavi, ne quid contortum, anxium aut alienum inſererem, ſed maxime γνήσιον, quod ipſa in re quaſi natum videretur: quanquam ingenuè fateor, animum quotidiana intentione (taceo interim luctum, ob immaturam mortem filioli ſuaviſsimi) hebetatum, alicubi remiſsiorem fuiſſe, præſertim in modis minus elegantibus: qui licet quàm diligentiſsimè tractentur: attamen aliorum venuſtatem minime aſſequuntur, niſi extra chorum ſaltare velis, phraſi ipſorum contorta. Adhæc fugæ quid requirant, quantoq; labore conſtent, intelligunt μουσικώτεροι. Hîc iterum non diffiteor, interdum fugam aliquam, aut à me ipſo antea, aut ab alijs uſurpatam, præoccupaſſe animum meum vel invitum: dedi tamen operam ut tædium ſi quod ex iteratione obrepere forte poſſet, adimerem, facie eius nonnihil immutata. Ideo me tibi excuſatum iri ſpero. Nam imitationem, quam in alijs autoribus probamus, cur in muſicis improbaremus? Tum limites vocum licet quandoq; tranſgreſſus ſum non tamen id temerè à me factum deprehendes. Poſtremò illud te latere nolo, cantiones dominicis Lætare & Palmarum applicandas, conſultò omiſſas eſſe: quia altera illarum dominica ſeptima poſt Trinitatis, altera dominica prima Adventus recurrit. Vale muſicè lector candide χαῖρε τοῖς ἐμμένοις ἢ θελτίω τάττουσι: id quod citra mei offenſionem tibi licebit.

Epigramma

In novum opus Musicum, quod nunc demum operâ & studio Philippi Dulichij, Musici suavissimi, in lucem prodit.

HArmonicos primus modulos invenit (Apollo
Delius: ut veterum scripta diserta (monent.
Inventosq; simul communem vertit ad usum:
Gentibus ac variis profuit artis ope.
Ergo velut reliquæ, cupidè quas discimus artes,
Musica sic donum creditur esse DEI.
Hujus & ad laudes celebrandas jure refertur:
Gutture seu fiat, sive strepente sono.
Vtraq;, crede mihi, vocalis scilicet æquè
Est ac organice Musica grata DEO.
Psaltes testis erit locuples, Ecclesia testis,
Nec non AMBROSI lex venerande tua.
Sanxit is in sacris cantandos cœtibus hymnos,
Exemplo reliquos erudijtq; suo.
Illam posteritas hodie tenet æmula legem:
Et conservabit, si qua futura, diu.
At tibi DVLICHI debetur gratia magna,
Ob symphoniacum, quod modò prodit, opus.
Textibus ê sacris, sacrâ quæ luce leguntur
Iudicio promis dicta venusta bono.
Exples prompta simul numeroq; sonoq; suavi:
Quorsum? laus uni surgat ut inde DEO.
Scilicet in sacro celebrarier agmine Numen
Et vult & precibus voce piaq; coli.
Adde quod humanis deservis usibus aptè,
Quam navas, operâ docte Philippe tuâ.
In multis acues pietatem mentibus: illas
Cultibus intentas efficiesq; pijs.
Moerenti curam depelles pectore duram:
Cura perit suavi diluiturq; sono.
Ergo bonis fuerit gratus labor omnibus ille

M. Petrus Cölemannus.

Benevolo lectori.
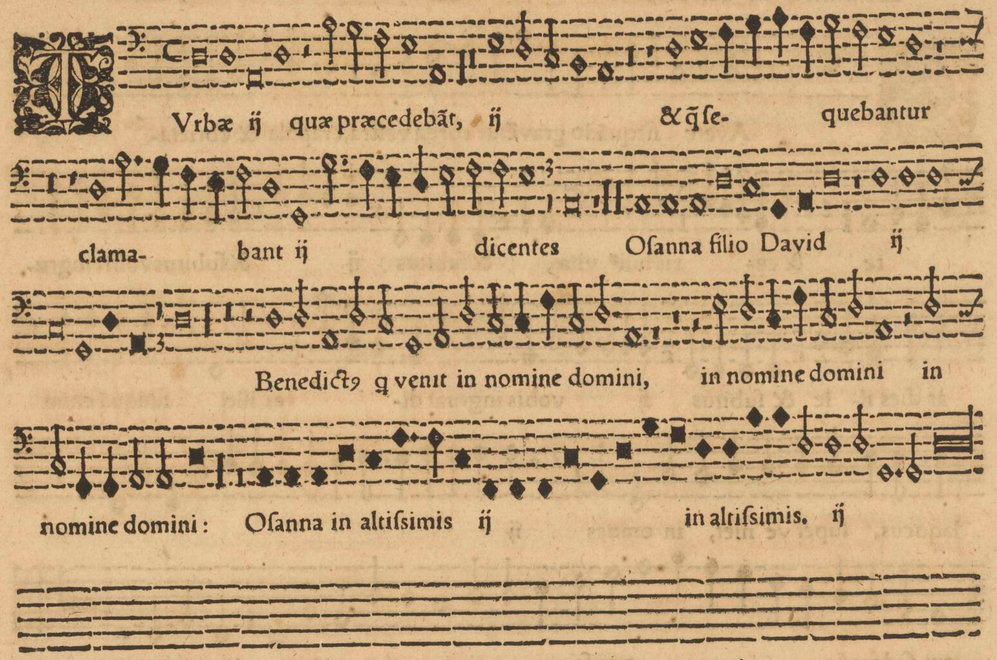

QVa occasione de adornando hoc opusculo cogitare, candide lector, cœperim: quibus item caussis motus, singulorum modorum exempla inserere & typis evulgare voluerim, antea ex me cognovisti. Quia autem altera pars anno superiore in lucem prodijt, necesse fuit hanc adiungere: ne à benè cœptis destitisse, & domum, quod aiunt, imperfectam reliquisse viderer.
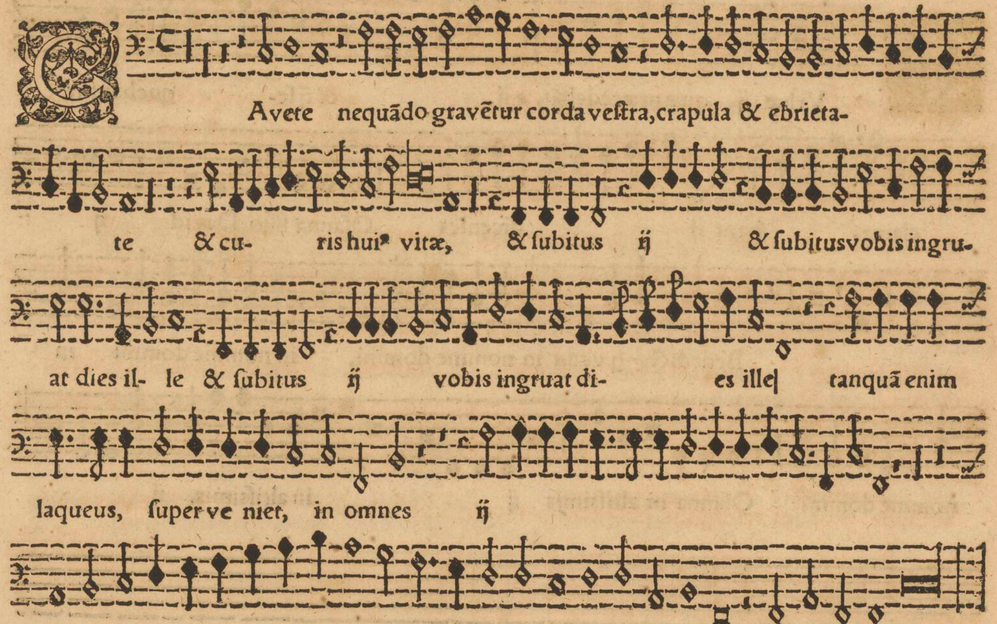

Quod ad studium meum attinet, primò omnem adhibui diligentiam: ut quemadmodum decet melopœum, textum non solùm notulis ritè applicarem (id quod veteres parum curasse constat) verum etiam sensum & ἐνέργειαν eius, quantum fieri potuit, exprimerem: ut ita harmonia, quemadmodum præcipit Glareanus lib. 2. cap. ultimo, rebus apta redderetur.
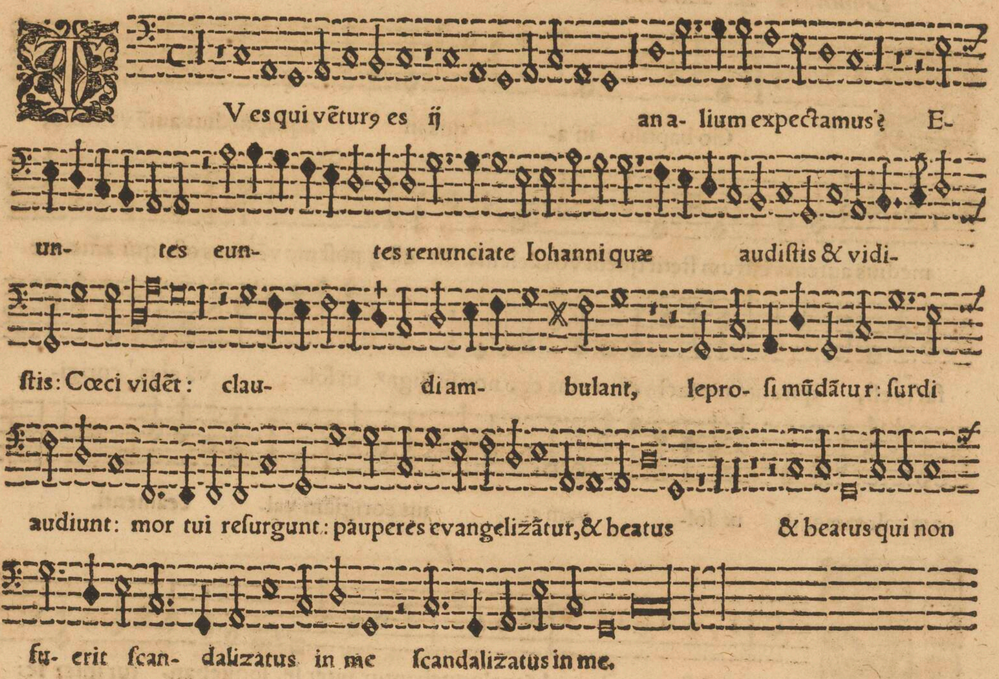

Deinde in harmonia ipsa condenda cavi, ne quid contortum, anxium aut alienum inservirem, sed maxime γνήσιον, quod ipsa in re quasi natum videretur: quanquam ingenuè fateor, animum quotidiana intentione (taceo interim luctum, ob immaturam mortem filioli suavissimi) hebetatum, alicubi remissiorem fuisse, præsertim in modis minus elegantibus: qui licet quàm diligentissimè tractentur: attamen aliorum venustatem minime assequuntur, nisi extra chorum saltare velis, phrasi ipsorum contorta. Adhæc fugæ quid requirant, quantoq; labore constent, intelligunt μυσικώτεροι. Hîc iterum non diffiteor, interdum fugam aliquam, aut à me ipso antea, aut ab alijs usurpatam, præoccupasse animum meum vel invitum: dedi tamen operam ut tædium si quod ex iteratione obrepere fortè posset, adimerem, facie eius nonnihil immutata. Ideo me tibi excusatum iri spero. Nam imitationem, quam in alijs autoribus probamus, cur in musicis improbaremus? Tum limites vocum licet quandoq; transgressus sum non tamen id temerè à me factum deprehendes. Postremò illud te latere nolo, cantiones dominicis Lætare & Palmarum applicandas, consultò omissas esse: quia altera illarum dominica septima post Trinitatis, altera dominica prima Adventus recurrit. Vale musicè lector candide χῶρ τοῖς ὑγκμένοις ἢ θελεῖν τέτων χάτων: id quod citra mei offensionem tibi licebit.

CLARISSIMO VIRO, ERVDITA DOCTRINA, PRVDENTIA, AVTORITATE ET PIETATE EXCELlentiſsimo, Dn. IOHANNI RVNGIO, Philoſophiæ & medicinæ Doctori, domino & fautori ſuo perpetuò honorando.

ANnus iam elapſus eſt undecimus, Clariſſime & eruditiſſime vir, domine & fautor plurimùm colende, ex quo à Reverendo, clariſſ. & ampl. viro, qui tunc temporis ſcholæ illuſtri & templo collegiato præfuerunt, mihi præter munus docendi publicum, adminiſtratio chori muſici demandata eſt: in qua exequenda operam dedi ſedulò: ut ſelectiſſimas probatiſſimorum artificum, tam veterum quàm recentiorum cantiones cultibus divinis adhiberem: & quidem eiusmodi, quæ, uti decet, ex textibus evangelicis aut deſumtæ eſſent, aut certè cum ijsdem convenirent. Quando verò idoneas deſideravi, ipſemet novas compoſui: ut ita opus muſicum quàm locupletiſſimum redderem: ad quod deinceps, re ita exigente, tanquam ad ἕτοιμα & promptuarium quoddam recurrere poſſē. Atq; hac occaſione cœpi primùm excerpere ex evangelijs inſigniores ſententias harmonicis numeris exornandas: poſtea animum integro operi componendo applicavi: quod tum præcipuorum totius anni feſtorum, tum dominicorum dierum cantiones contineret. Et res ſatis feliciter proceſſit. Nam Deus cuius beneficio hoc aggreſſus ſum, conatibus etiam meis benigne adfuit: ut potiorē earum partē intra ſemeſtre ſpacium anni ſuperioris abſoluerim. Ex ijs, quæ evangelijs intra pentecoſtes & adventus feriis contentis, conveniunt, nunc excerpſi, & prælo ſubieci: ut nimirum typis exſcriptæ cum aliis commodius communicari poſſint. Deinde, ut diſcentes etiam hac ratione ad artis ſtudium quodammodo invitarem. Deniq; ut fidei meæ publicum aliquod extaret teſtimonium & poſteritates etiam, ſi qua futura eſt, cognoſcat, tam muſicam, quàm reliquas artes non prorſus neglectas à nobis fuiſſe.

Cæterum diu multumq; cogitanti mihi de patrono cui haſce lucubrationes dedicarem, tandem occurrit præſtans tua Excellentia: quæ (vt taceam ſummas cum ingenij dotes, tum virtutes alias eximias, quas nemo non miratur & ſuſpicit, etiam apud exteros) hanc artem non ſolùm magnifacit, verùm etiam probè callet.

Et videtur tibi vir optime, ſicut & fratribus tuis viris itidem optimis & clariſſimis innata, & à parente veſtro piæ memoriæ doctore & theologo honeſtiſſimè de Eccleſiis Pomeraniæ merito, ſemina eius in vos propagata eſſe. Nam ut is fuit artis huius peritiſſimus: ita tanti eam fecit, ut ſæpius bonam diei partem exercitijs muſicis tribueret: præcipuè vero menſibus aliquot, qui obitum eius proximè anteceſſerunt, nullum diem abſq; excercitio muſico præterire paſſus fuit. Probè nimirum intellexit hic ſummus vir, quanta ſit vis & efficacia oraculorum ſacrorum, artificioſis concentibus incluſorum. Sed ad te redeo vir clariſſ. cui hunccе faſciculum dedicare libuit, cum ſciam, te de rebus & modis muſicis eruditè iudicare poſſe, quod de ſententia Glareani lib. 3. cap. 13. dodecachordi, præcipuum eſt in Muſico. Adhibe igitur lapidem lydium ſpecies nempe diapente & diateſſaron: & experiēre me ſingulu eorum & quidem γνησίοις, exempla aliquot attemperaſſe: id quod pauciſſimi facere ſolent. Nam pleriq; inhærent Dorio, Ionico eorumq; plagijs, Hypomixolydio item, & phrygio: rarò attingunt Aeolium & Mixolydium, modos hercle ēgregios: rarius Hypoæolium & Hypophrygium verum, hoc eſt, intra terminos ſuos decurrentem: rariſſimè vel nunquam Lydium, Hypolydiumq;, quaſi conſpiratione in eos facta, de exilio eorum publicè ſit decretum, vt loquitur Glareanus. Nam (cæteros nunc præteream) in Orlandi cantionibus, quem bonoris cauſſa nomino, quæ quidem ad manus meas pervenēre, ne vnicum quidem, ſi rectè memini, Lydij exemplum occurrit, Hypolydy unicum: ſed & illud in Hypojonicum ſubinde deflexum, non ſine offenſione Hypolydij. Cauſſa autem, ob quam dicti duo modi exulant, eſt: quod duriori conſtant phraſi: & non tam faciles atq; Dorius aliuſve, tractatu ſunt. Hæc tamen minimè in contemptum aliorum, quorum cantiones ſcitè compoſitas magnifacio, ſed adhortationis loco, de modis dictis non præterendis à me ſcripta eſſe volo. Quod reſtat, officioſe rogo præſtantem tuam Excellentiam: vt has vigilias meas eo, quo erga artem affecta eſt, animo accipere & pro ſymbolo meæ erga ſe perpetuò conſervandæ benevolentiæ habere dignetur. Deum precor, ut te ſalvum & incolumem diu conſervet. Dabatur Stetini in ipſo feſto Spiritus ſancti, viſibiliter in Apoſtolos offuſi: Anno æræ Chriſtianæ 98. ſupra ſesquimilleſimum.

CLARISSIMO VIRO, ERVDITA DOCTRINA, PRVDENTIA, AVTORITATE ET PIETATE EXCELlentiſsimo, Dn. IOHANNI RVNGIO, Philoſophiæ & medicinæ Doctori, domino & fautori ſuo perpetuò honorando.

ANnus iam elapſus eſt undecimus, Clariſsime & eruditiſsime vir, domine & fautor plurimùm colende, ex quo à Reverendis, clariſs. & ampl. viris, qui tunc temporis ſcholæ illuſtri & templo collegiato præfuerunt, mihi præter munus docendi publicum, adminiſtratio chori muſici demandata eſt: in qua exequenda operam dedi ſedulò: ut ſelectiſsimas probatiſsimorum artificum, tam veterum quàm recentiorum cantiones cultibus divinis adhiberem: & quidem eiusmodi, quæ, uti decet, ex textibus evangelicis aut deſumtæ eſſent, aut certè cum ijsdem convenirent. Quando verò idoneas deſideravi, ipſemet novas compoſui: ut ita opus muſicum quàm locupletiſsimum redderem: ad quod deinceps, re ita exigente, tanquam ad θήκας & promptuarium quoddam recurrere poſſem. Atq; hac occaſione cœpi primùm excerpere ex evangelijs inſigniores ſententias harmonicis numeris exornandas: poſtea animum integrè operi componendo applicavi: quod tum præcipuorum totius anni feſtorum, tum dominicorum dierum cantiones contineret. Et res ſatis feliciter proceſſit. Nam Deus cuius beneficio hoc aggreſſus ſum, conatibus etiam meis benigne adfuit: ut potiorē earum partē intra ſemeſtre ſpacium anni ſuperioris abſoluerim. Ex ijs, quæ evangelijs intra pentecoſtes & adventus ferias contentis, conveniunt, nunc excerpſi, & prælo ſubieci: ut nimirum typis exſcriptæ cum aliis commodius communicari poſſint. Deinde, ut diſcentes etiam hac ratione ad artis ſtudium quodammodo invitarem. Deniq; ut fidei meæ publicum aliquod extaret teſtimonium & poſteritates etiam, ſi qua futura eſt, cognoſcat, tam muſicam, quàm reliquas artes non prorſus neglectas à nobis fuiſſe.

Cæterum diu multumq; cogitanti mihi de patrono cui haſce lucubrationes dedicarem, tandem occurrit præſtantia tua Excellentia: quæ (vt taceam ſummas cum ingenij dotes, tum virtutes alias eximias, quas nemo non miratur & ſuſpicit, etiam apud exteros) hanc artem non ſolùm magnifacit, verùm etiam probè callet.

Et videtur tibi vir optime, ſicut & fratribus tuis viris itidem optimis & clariſsimis innata, & à parente veſtro piæ memoriæ doctore & theologo honeſtiſsimè de Eccleſijs Pomeraniæ merito, ſemina eius in vos propagata eſſe. Nam ut is fuit artis huius peritiſsimus: ita tanti eam fecit, ut ſæpius bonam diei partem exercitijs muſicis tribueret: præcipuè vero menſibus aliquot, qui obitum eius proximè anteceſſerunt, nullum diem abſq; excercitio muſico præterire paſſus fuit. Probè nimirum intellexit hic ſummus vir, quanta ſit vis & efficacia oraculorum ſacrorum, artificioſis concentibus incluſorum. Sed ad te redeo vir clariſs. cui huncce faſciculum dedicare libuit, cum ſciam, te de rebus & modis muſicis eruditè iudicare poſſe, quod de ſententia Glareani lib. 3. cap. 13. dodecachordi, præcipuum eſt in Muſico. Adhibe igitur lapidem lydium ſpecies nempe diapente & diateſſaron: & experiēre me ſingulis eorum & quidem γνησίοις, exempla aliquot attemperaſſe: id quod paucissimi facere ſolent. Nam plerique inhærent Dorio, Ionico eorumq; plagijs, Hypomixolydio item, & phrygio: rarò attingunt Aeolium & Mixolydium, modos hercle egregios: rarius Hypoæolium & Hypophrygium verum; hoc eſt, intra terminos ſuos decurrentem: rariſsimè vel nunquam Lydium, Hypolydiumq;, quaſi conſpiratione in eos facta, de exilio eorum publicè ſit decretum, vt loquitur Glareanus. Nam (cæteros nunc prætereo) in Orlandi cantionibus, quem honoris cauſſa nomino, quæ quidem ad manus meas pervenēre, ne vnicum quidem, ſi rectè memini, Lydij exemplum occurrit, Hypolydy unicum: ſed & illud in Hypojonicum ſubinde deflexum, non ſine offenſione Hypolydij. Cauſſa autem, ob quam dicti duo modi exulant, eſt: quòd duriori conſtant phraſi: & non tam faciles atq; Dorius aliuſve, tractatu ſunt. Hæc tamen minimè in contemptum aliorum, quorum cantiones ſcitè compoſitas magnifacio, ſed adhortationis loco, de modis dictis non prætereundis à me ſcripta eſſe volo. Quod reſtat, officioſè rogo præſtantem tuam Excellentiam: vt has vigilias meas eo, quo erga artem affecta eſt, animo accipere & pro ſymbolo meæ erga ſe perpetuo conſervandæ benevolentiæ habere dignetur. Deum precor, ut te ſalvum & incolumem diu conſervet. Dabatur Stettini in ipſo feſto Spiritus ſancti, viſibiliter in Apoſtolos effuſi: Anno æræ Chriſtianæ 98. ſupra ſesquimilleſimum.

CLARISSIMO VIRO, ERVDITA DOCTRINA, PRVDENTIA, AVTORITATE ET PIETATE EXCELlentiſsimo, Dn. IOHANNI RVNGIO, Philoſophiæ & medicinæ Doctori, domino & fautori ſuo perpetuò honorando.

ANnus iam elapſus eſt undecimus, Clariſsime & eruditiſsime vir, domine & fautor plurimùm colende, ex quo à Reverendis, clariſs. & ampl. viris, qui tunc temporis ſcholæ illuſtri & templo collegiato præfuerunt, mihi præter munus docendi publicum, adminiſtratio chori muſici demandata eſt: in qua exequenda operam dedi ſedulò: ut ſelectiſsimas probatiſsimorum artificum, tam veterum quàm recentiorum cantiones cultibus divinis adhiberem: & quidem eiusmodi, quæ, uti decet, ex textibus evangelicis aut deſumtæ eſſent, aut certè cum ijsdem convenirent. Quando verò idoneas deſideravi, ipſemet novas compoſui: ut ita opus muſicum quàm locupletiſsimum redderem: ad quod deinceps, re ita exigente, tanquam ad κτῆμα & promptuarium quoddam recurrere poſſē. Atq; hac occaſione cœpi primùm excerpere ex evangelijs inſigniores ſententias harmonicis numeris exornandas: poſtea animum integro operi componendo applicavi: quod tum præcipuorum totius anni feſtorum, tum dominicorum dierum cantiones continueret. Et res ſatis feliciter proceſſit. Nam Deus cuius beneficio hoc aggreſſus ſum, conatibus etiam meis benigne adfuit: ut potiorē earum partē intra ſemeſtre ſpacium anni ſuperioris abſoluerim. Ex ijs, quæ evangelijs intra pentecoſtes & adventus ferias contentis, conveniunt, nunc excerpſi, & prælo ſubiecī: ut nimirum typis exſcriptæ cum alijs commodius communicari poſſint. Deinde, ut diſcentes etiam hac ratione ad artis ſtudium quodammodo invitarem. Deniq; ut fidei meæ publicum aliquod extaret teſtimonium & poſteritates etiam, ſi qua futura eſt, cognoſcat, tam muſicam, quàm reliquas artes non prorſus neglectas à nobis fuiſſe.

Cæterum diu multumq; cogitanti mihi de patrono cui haſce lucubrationes dedicarem, tandem occurrit præſtans tua Excellentia: quæ (vt taceam ſummas cum ingenij dotes, tum virtutes alias eximias, quas nemo non miratur & ſuſpicit, etiam apud exteros) hanc artem non ſolùm magnifacit, verùm etiam probè callet.

Et videtur tibi vir optime, ſicut & fratribus tuis viris itidem optimis & clariſsimis innata, & à parente veſtro piæ memoriæ doctore & theologo honeſtiſsimè de Eccleſijs Pomeraniæ merito, ſemina eius in vos propagata eſſe. Nam ut is fuit artis huius peritiſsimus: ita tanti eam fecit, ut ſæpius bonam diei partem exercitijs muſicis tribueret: præcipuè vero menſibus aliquot, qui obitum eius proximè anteceſſerunt, nullum diem abſq; excercitio muſico præterire paſſus fuit. Probè nimirum intellexit hic ſummus vir, quanta ſit vis & efficacia oraculorum ſacrorum, artificioſis concentibus incluſorum. Sed ad te redeo vir clariſs. cui huncce faſciculum dedicare libuit, cum ſciam, te de rebus & modis muſicis eruditè iudicare poſſe, quod de ſententia Glareani lib. 3. cap. 13. dodecachordi, præcipuum eſt in Muſico. Adhibe igitur lapidem lydium ſpecies nempe diapente & diateſſaron: & experiēre me ſingulis eorum & quidem γνωρίσις, exempla aliquot attemperaſe: id quod pauciſsimi facere ſolent. Nam pleriq; inhærent Dorio, Ionico eorumq; plagijs, Hypomixolydio item, & phrygio: rarò attingunt Aeolium & Mixolydium, modos hercle egregios: rarius Hypoæolium & Hypophrygium verum, hoc eſt, intra terminos ſuos decurrentem: rariſsimè vel nunquam Lydium, Hypolydiumq;, quaſi conſpiratione in eos facta, de exilio eorum publicè ſit decretum, vt loquitur Glareanus. Nam (cæteros nunc præter eo) in Orlandi cantionibus, quem honoris cauſa nomino, quæ quidem ad manus meas pervenēre, ne vnicum quidem, ſi rectè memini, Lydij exemplum occurrit, Hypolydy unicum: ſed & illud in Hypojonicum ſubinde deflexum, non ſine offenſione Hypolydy.

Cauſa autem, ob quam dicti duo modi exulant, eſt: quod duriori conſtant phraſi: & non tam faciles atq; Dorius aliuſve, tractatu ſunt. Hæc tamen minimè in contemptum aliorum, quorum cantiones ſcitè compoſitas magnifacio, ſed adhortationis loco, de modis dictis non prætereundis à me ſcripta eſſe volo. Quod reſtat, officioſè rogo præſtantem tuam Excellentiam: vt has vigiliarum meas eo, quo erga artem affecta eſt, animo accipere & pro ſymbolo meæ erga ſe perpetuò conſervandæ benevolentiæ habere dignetur. Deum precor, ut te ſalvum & incolumem diu conſervet. Dabatur Stetini in ipſo feſto Spiritus ſancti, viſibiliter in Apoſtolos effuſi: Anno æræ Chriſtianæ 98. ſupra ſesquimilleſimum.

Pr. t. Excell.
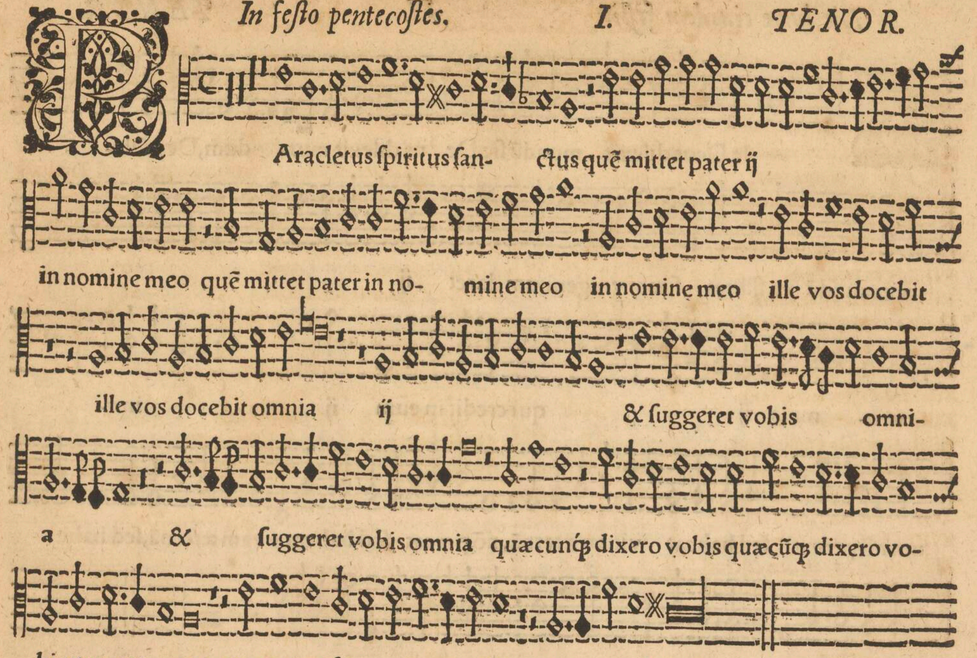

reverenter colens.

CLARISSIMO VIRO, ERVDITA DOCTRINA, PRVDENTIA, AVTORITATE ET PIETATE EXCELlentiſsimo, Dn. IOHANNI RVNGIO, Philoſophiæ & medicinæ Doctori, domino & fautori ſuo perpetuò honorando.

ANnus iam elapſus eſt undecimus, Clariſsime & eruditiſsime vir, domine & fautor plurimùm colende, ex quo à Reverendis, clariſs. & ampl. viris, qui tunc temporis ſcholæ illuſtri & templo collegiato præfuerunt, mihi præter munus docendi publicum, adminiſtratio chori muſici demandata eſt: in qua exequenda operam dedi ſedulò: ut ſelectiſsimas probatiſsimorum artificum, tam veterum quàm recentiorum cantiones cultibus divinis adhiberem: & quidem eiusmodi, quæ, uti decet, ex textibus evangelicis aut deſumtæ eſſent, aut certè cum ijsdem convenirent. Quando verò idoneas deſideravi, ipſemet novas compoſui: ut ita opus muſicum quàm locupletiſsimum redderem: ad quod deinceps, re ita exigente, tanquam ad κτῆμα & promptuarium quoddam recurrere poſſē. Atq; hac occaſione cœpi primùm excerpere ex evangelijs inſigniores ſententias harmonicis numeris exornandas: poſtea animum integrè operi componendo applicavi: quod tum præcipuorum totius anni feſtorum, tum dominicorum dierum cantiones contineret. Et res ſatis feliciter proceſſit. Nam Deus cuius beneficio hoc aggreſſus ſum, conatibus etiam meis benigne adfuit: ut potiorē earum partē intra ſemeſtre ſpacium anni ſuperioris abſoluerim. Ex ijs, quæ evangelijs intra pentecoſtes & adventus ferias contentis, conveniunt, nunc excerpſi, & prælo ſubieci: ut nimirum typis exſcriptæ cum alijs commodius communicari poſſint. Deinde, ut diſcentes etiam hac ratione ad artis ſtudium quodammodo invitarem. Deniq; ut fidei meæ publicum aliquod extaret teſtimonium & poſteritates etiam, ſi qua futura eſt, cognoſcat, tam muſicam, quàm reliquas artes non prorſus neglectas à nobis fuiſſe.

Cæterum diu multumq; cogitanti mihi de patrono cui haſce lucubrationes dedicarem, tandem occurrit præſtans tua Excellentia: quæ (vt taceam ſummas cum ingenij dotes, tum virtutes alias eximias, quas nemo non miratur & ſuſpicit, etiam apud exteros) hanc artem non ſolùm magnifacit, verùm etiam probè callet.

Et videtur tibi vir optime, ſicut & fratribus tuis viris itidem optimis & clariſsimis innata, & à parente veſtro piæ memoriæ doctore & theologo honeſtiſsimè de Eccleſijs Pomeraniæ merito, ſemina eius in vos propagata eſſe. Nam ut is fuit artis huius peritiſsimus: ita tanta eam fecit, ut ſæpius bonam diei partem exercitijs muſicis tribueret: præcipuè vero menſibus aliquot, qui obitum eius proximè anteceſſerunt, nullum diem abſq; exercitio muſico præterire paſsus fuit. Probè nimirum intellexit hic ſummus vir, quanta ſit vis & efficacia oraculorum ſacrorum, artificioſis concentibus inclusorum. Sed ad tē redeo vir clariſs. cui huncce faſciculum dedicare libuit, cum ſciam, te de rebus & modis muſicis eruditè iudicare poſſe, quod de ſententia Glareani lib. 3. cap. 13. dodecachordi, præcipuum eſt in Muſico. Adhibe igitur lapidem lydium ſpecies nempe diapente & diateſſaron: & experīre me ſingulorum eorum & quidem γνησίοις, exempla aliquot attemperaſſe: id quod paucisſimi facere ſolent. Nam pleriq; inhærent Dorio, Ionico eorumq; plagijs, Hypomixolydio item, & phrygio: rarò attingunt Aeolium & Mixolydium, modos hercle egregios: rarius Hypoæolium & Hypophrygium verum, hoc eſt, intra terminos ſuos decurrentem: rariſsimè vel nunquam Lydium, Hypolydiumq;, quaſi conſpiratione in eos facta, de exilio eorum publicè ſit decretum, vt loquitur Glareanus. Nam cæteros nunc prætereo) in Orlandi cantionibus, quem honoris cauſsa nomino, quæ quidem ad manus meas pervenēre, ne vnicum quidem, ſi rectè memini, Lydij exemplum occurrit, Hypolydy unicum: ſed & illud in Hypojonicum ſubinde deflexum, non ſine offenſione Hypolydij.

Cauſsa autem, ob quam dicti duo modi exulant, eſt: quod duriori conſtant phraſi: & non tam facile atq; Dorius aliuſve, tractati ſunt. Hæc tamen minimè in contemptum aliorum, quorum cantiones ſcitè compoſitas magnifacio, ſed adhortationis loco, de modis dictis non prætereundis à me ſcripta eſſe volo. Quod reſtat, officioſè rogo præſtantem tuam Excellentiam: vt has vigilias meas eo, quo erga artem affecta eſt, animo accipere & pro ſymbolo meæ erga ſe perpetuò conſervandæ benevolentiæ habere dignetur. Deum precor, vt te ſalvum & incolumem diu conſervet. Dabatur Stetini in ipſo feſto Spiritus ſancti, viſibiliter in Apoſtolos effuſi: Anno æræ Chriſtianæ 98. ſupra ſesquimilleſimum.

CLARISSIMO VIRO, ERVDITA DOCTRINA, PRVDENTIA, AVTORITATE ET PIETATE EXCELlentiſsimo, Dn. IOHANNI RVNGIO, Philoſophiæ & medicinæ Doctori, domino & fautori ſuo perpetuò honorando.

ANnus iam elapſus eſt undecimus, Clariſsime & eruditiſsime vir, domine & fautor plurimùm colende, ex quo à Reverendo, clariſs. & ampl. viro, qui tunc temporis ſcholæ illuſtri & templo collegiato præfuerunt, mihi præter munus docendi publicum, adminiſtratio chori muſici demandata eſt: in qua exequenda operam dedi ſedulò: ut ſelectiſsimas probatiſsimorum artificum, tam veterum quàm recentiorum cantiones cultibus divinis adhiberem: & quidem eiusmodi, quæ, uti decet, extextibus evangelicis aut deſumtæ eſſent, aut certè cum ijsdem convenirent. Quando verò idoneas deſideravi, ipſemet novas compoſui: ut ita opus muſicum quàm locupletiſsimum redderem: ad quod deinceps, re ita exigente, tanquam ad κῆμα & promptuarium quoddam recurrere poſſē. Atq; hac occaſione cœpi primùm excerpere ex evangelys inſigniores ſententias harmonicis numeris exornandas: poſtea animum integrò operi componendo applicavi: quod tum præcipuorum totius anni feſtorum, tum dominicorum dierum cantiones contineret. Et res ſatis feliciter proceſſit. Nam Deus cuius beneficio hoc aggreſsus ſum, conatibus etiam meis benigne adfuit: ut potiorē earum partē intra ſemeſtre ſpacium anni ſuperioris abſoluerim. Ex ijs, quæ evangelys intra pentecoſtes & adventus ferias contentis, conveniunt, nunc excerpſi, & prælo ſubieci: ut nimirum typis exſcriptæ cum alijs commodius communicari poſſint. Deinde, ut diſcentes etiam hac ratione ad artis ſtudium quodammodo invitarem. Deniq; ut fidei meæ publicum aliquod extaret teſtimonium & poſteritates etiam, ſi qua futura eſt, cognoſcat, tam muſicam, quàm reliquas artes non prorſus neglectas à nobis fuiſſe.

Cæterum diu multumq; cogitanti mihi de patrono cui haſce lucubrationes dedicarem, tandem occurrit præſtantia tua Excellentia: quæ (vt taceam ſummas cum ingenij dotes, tum virtutes alias eximias, quas nemo non miratur & ſuſpicit, etiam apud exteros) hanc artem non ſolùm magnifacit, verùm etiam probè callet.

Et videtur tibi vir optime, ſicut & fratribus tuis viris itidem optimis & clariſsimis innata, & à parente veſtro piæ memoriæ doctore & theologo honeſtiſsimè de Eccleſia Pomeraniæ merito, ſemina eius in vos propagata eſſe. Nam ut is fuit artis huius peritiſsimus: ita tanti eam fecit, ut ſæpius bonam diei partem exercitijs muſicis tribueret: præcipuè vero menſibus aliquot, qui obitum eius proximè anteceſſerunt, nullum diem abſq; exercitio muſico præterire paſsus fuit. Probè nimirum intellexit hic ſummus vir, quanta ſit vis & efficacia oraculorum ſacrorum, artificioſis concentibus incluſorum. Sed ad te redeo vir clariſs. cui hunccē faſciculum dedicare libuit, cum ſciam, te de rebus & modis muſicis eruditè iudicare poſſe, quod de ſententia Glareani lib. 3. cap. 13. dodecachordi, præcipuum eſt in Muſico. Adhibe igitur lapidem lydium ſpecies nempe diapente & diateſsaron: & experiēre me ſingulis eorum & quidem γνησίοις, exempla aliquot attemperaſse: id quod paucisſimi facere ſolent. Nam plerique inhærent Dorio, Ionico eorumq; plagis, Hypomixolydio item, & phrygio: raro attingunt Aeolium & Mixolydium, modos hercle egregios: rarius Hypoæolium & Hypophrygium verum, hoc eſt, intra terminos ſuos decurrentem: rariſsimè vel nunquam Lydium, Hypolydiumq;, quaſi conſpiratione in eos facta, de exilio eorum publicè ſit decretum, vt loquitur Glareanus. Nam (cæteros nunc præterco) in Orlandi cantionibus, quem honoris cauſſa nomino, quæ quidem ad manus meas pervenēre, ne vnicum quidem, ſi rectè memini, Lydij exemplum occurrit, Hypolydij unicum: ſed & illud in Hypoionicum ſubinde deflexum, non ſine offenſione Hypolydij.

Cauſſa autem, ob quam dicti duo modi exulant, eſt: quod duriori conſtant phraſi: & non tam faciles atq; Dorius aliuſve, tractatu ſunt. Hæc tamen minimè in contemptum aliorum, quorum cantiones ſcitè compoſitas magnifacio, ſed adhortationis loco, de modis dictis non prætereundis à me ſcripta eſſe volo. Quod reſtat, officioſe rogo præſtantem tuam Excellentiam: vt has vigilias meas eo, quo erga artem affecta eſt, animo accipere & pro ſymbolo meæ erga ſe perpetuò conſervandæ benevolentiæ habere dignetur. Deum precor, ut te ſalvum & incolumem diu conſervet. Dabatur Stetini in ipſo feſto Spiritus ſancti, viſibiliter in Apoſtolos effuſi: Anno æræ Chriſtianæ 98. ſupra ſesquimilleſimum.
